Release Date: 2010-08-23

Managing Information Technology groups is rarely the core business of any company. Cascade Microtech, Inc. (NASDAQ: CSCD) of Beaverton, OR is one such a company whose goal is being worldwide leader in the precise electrical and mechanical measurement and test of integrated circuits. Recently they retained eCameron, Inc. to assist in rolling out their ERP implementation worldwide. Don Payne, who recently joined eCameron, will be the Senior Management Consultant acting as Cascades Director of Information Technology (IT) managing the consolidation of their ERP systems in Japan and Germany into Cascades corporate systems. Mr. Payne will also assist in streamlining IT operations, defining operational procedures for the IT department and head up recruiting a permanent-placement employee to continue the operations and management of the IT. The engagement is expected to last through the end of 2010.

END

About Don Payne

Don Payne is a senior information technology (IT) leader who provides strategic leadership, practical application, and successful implementation of information services and technology for all sizes of companies. He has worked in a broad range of industries that serve everything from local markets to global organizations.

Having held the positions as Vice President and Director for multiple corporations in all of the major IT disciplines, he understands the value of applying technology sensibly with measurable results in every aspect of corporate life—strategic planning, execution strategies, cross-functional collaboration, process development, operations, and organizational transformations. The industries he serves include banking, financial services, high-tech manufacturing, and electronics manufacturing. Don has been a leader and contributing member of multiple regional, national, and international projects. Familiar with the subtlety of cultural differences, Don has successfully implemented large global business-to-business (B2B) systems, global enterprise resource planning (ERP) infrastructure systems, country conversions to global ERP systems, and multiple merger and acquisitions (M&A) projects encompassing people, culture, process and technology.

For over eight years, Don has been involved with the Oracle Applications User Group (OAUG), serving on the Board of Directors as well as being a Past President.
